Preface .......................................................... xi

1. Making an Informed Decision About Precepting ........ 1
   What Is Community-Based Teaching? ................. 1
   Why Is Community-Based Teaching Needed? .......... 2
   How Good Is the Training in Community Offices? .... 3
   What Do Community-Based Practitioners Have to
      Offer Learners and Why Is It So Valuable? ......... 5
   What Is the Preceptor's Role? ......................... 6
   What Do Learners Want from a Community-Based
      Teaching Experience? ............................... 6
   How Do Learners Rate the Community Experience
      and Preceptors? .................................. 7
   What Are the Concerns of Practitioners Involved in
      Community-Based Teaching? ..................... 8
   What Are Some Costs Associated with Community-
      Based Teaching? .................................. 8
   What Are the Practitioner Benefits of Community-
      Based Teaching? ................................. 9
   What Are the Most Commonly Offered Rewards for
      Community-Based Teaching? .................... 10
How Do Patients React to Office-Based Teaching? .......... 10
What Are the Prerequisites for Precepting? ............... 11
Are There Courses to Improve Your Teaching? ............ 12

2. The Curriculum ............................................ 17
Core Competencies ........................................... 17
What Are Reasonable Teaching Goals for Community-
Based Teaching? .............................................. 19

3. Getting Ready to Teach ................................. 25
Before the Learner Arrives ............................... 25
When the Learner Arrives ............................... 28
Patient Scheduling ........................................ 31
Ancillary Teaching Opportunities ...................... 34
When the Patients Arrive ................................ 35
After the Patients Leave .................................. 36

4. Teaching Skills and Organizational Techniques
for Office-Based Teaching ................................ 39
Meaningful Responsibility ................................ 39
Characteristics of Effective Clinical Teachers .............. 40
Selecting Appropriate Patients ........................... 44
Strategies for Organizing the Office Visit ................. 45

5. Case-Based Learning .............................. 51
What Is Case-Based Learning? .......................... 51
The Microskills Model (One-Minute Preceptor) ............ 52
The “Aunt Minnie” Model .................................. 60
Modeling Problem Solving ................................ 62
The One-Minute Observation ............................. 63
Learner-Centered Precepting ............................. 64
SNAPPS Model of Learner-Centered Precepting ........... 66
Reflection .................................................. 68
Pitfalls of Case-Based Learning .......................... 69
Concluding the Visit ...................................... 73

6. Ways to Be More Efficient When Teaching ........ 75
The Focused Half Day ..................................... 75
Presenting in the Room ................................. 76
Collaborative Examinations ............................ 78
Active Observation ....................................... 79
Dual Teaching .............................................. 80
Service-Based Education ............................... 81
Just-In-Time Learning .................................... 82
Self-Directed (Independent) Learning ............... 82

7. Teaching Procedures in the Office ................. 87
Knowing the Skill Through and Through .............. 88
Creating Learning Objectives ........................... 88
Creating a Skill Checklist ............................... 89
The Introductory Phase ................................. 90
The Practice Phase ....................................... 93
The Perfecting Phase .................................... 94

8. Learner Feedback and Evaluation ................. 97
What Is Feedback and Why Is It Important? ........... 97
What Are the Different Types of Feedback? .......... 98
Why Is Feedback So Hard to Do? ..................... 98
Feedback Tips ............................................. 98
Time-Saving Tips for Giving Feedback ............... 104
Barriers to Effective Feedback ........................ 104
What Is the Difference Between Feedback and Evaluation? 105
Why Is Summative Evaluation Important? ............ 106
Basic Steps in the Evaluation Process? ............... 106
What Are Common Types of Evaluation Errors?  
Evaluation Using the GRADE Strategy  
The RIME Evaluation Framework  
Using the RIME Model to Assess Case Presentations  
When and How Should the Evaluation Session Be Scheduled?  

9. Preceptor Evaluation and Teaching Improvement  
How Will You Be Evaluated?  
How Can You Improve Your Teaching?  
Workshops, Courses, Peer Site Visits, and Additional Resources  

Appendix A  Tools for Preceptors  
Clinical Skills Inventory  
Learner Contract  
Patient Notice for Students in the Office  
Patient Notice for Residents in the Office  
Biography of a Resident Physician  
Educational Prescription Form  
Instructions to Help the Learner Organize the Patient Visit  
Tools to Help the Learner Organize the Patient Visit  
Patient Presentation Format for Learners  
Generic Acute Patient Script  
Generic Chronic Patient Script  
Feedback Note  
Mini-CEX Form  
Patient Satisfaction Form  
Behaviorally Anchored RIME Evaluation Form  
Questions Used to Teach and Evaluate Learners  
Appendix B  Summaries and Checklists for Preceptors . . . 147
   Before the Learner Arrives Preparatory Checklist .......... 148
   When the Learner Arrives Orientation Checklist .......... 150
   The Wave Schedule ............................................. 152
   When the Patients Arrive Checklist ......................... 153
   Summary of the Learning Experience ...................... 154
   Summary of the Microskills Model for Precepting ........ 156
   Summary of the “Aunt Minnie” Model for Precepting ...... 157
   Summary of the One-Minute Observation ................... 158
   Summary of Learner-Centered Precepting .................. 159
   Summary of the SNAPPSS Precepting Model .............. 160
   Summary of Active Observation ............................ 161
   Summary of Self-Directed (Independent) Learning ....... 162
   Teaching Procedural Skills .................................. 163
   Summary of Feedback Tips ................................... 164
   Summary of Evaluation ....................................... 165
   Summary of the RIME Evaluation Framework ............. 166
   Summary of the GRADE Strategy for Evaluation ........ 167
   Preceptor Evaluation Form ................................. 168

Appendix C  Resources for Preceptors ................. 171
   Commonly Offered Rewards for Precepting ................. 172
   Faculty Development Resources for Preceptors .......... 173

Index ......................................................... 175
